

Habitat Management (CSP Enhancements)

October 2005

Colorado Enhancement Activity Job Sheet H-7

Name: _____

Retain Tall Stubble, Minimum 15", Through Winter

Payment = \$3.00 / acre / year for each acre where harvested grain stubble is a minimum of 15" or taller. Stubble will be maintain undisturbed until July 1st during which time weeds will be adequately controlled. This enhancement is subject to payment caps. Actual payments will depend on CSP Tier level and the number of acres enrolled.

This enhancement provides food, escape cover, day and night roost sites, and nesting sites for a number of wildlife species (*identify species benefited*).

Documentation Required: Use the following Table for documentation. Attach a plan map showing the field numbers where the stripper header will be used.

Field Identifier(s)	Target Species	Type of Grain	Stubble Height After Harvest	Date of First Tillage

I certify that I am maintaining residues as specified by this enhancement in the fields identified above.
